ANNUAL GENERAL MEETING SAVE THE DATE!

The 2017 Annual General Meeting (AGM) will take place on:
Thursday, September 28, 2017
3:45pm – 6:00pm
The Settlement Building, 55 Dunlevy Ave

Doors open at 3:45pm with the AGM taking place shortly after followed by a members networking session with key community stakeholders from 5:00pm – 6:00pm.

Look for the AGM package in early September to formally register.

MAP STRATHCONA

Mobility Advocacy Plan

With grant support from the Real Estate Foundation of BC, we've launched a unique project to develop a Mobility Advocacy Plan (MAP Strathcona) for our business district – the first of its kind in Canada.

The purpose of this project is to develop a community-based mobility and

transportation vision and supporting action plan for the SBIA and project partners to pursue. The project will explore a range of transportation and mobility issues, including goods movement, transit, curbside uses, active transportation, car and bike sharing opportunities, and parking with business interests in mind.

What are the most pressing transportation and mobility issues in Strathcona?
Fill out this 5-minute survey to help us focus our efforts:

FUTURE STRATHCONA MOBILITY AND TRANSPORTATION FORUM

Wednesday, October 25, 2017
7:30am – 10:30am
Dutch Urban Design Centre
1489 Frances Street

To register for the event head to
<http://bit.ly/FutureStrathconaForum>

Join us for an action-oriented breakfast meeting to explore future transportation and mobility scenarios for the neighbourhood. We will work to develop the strategies needed to address transportation issues in our area. Engage with fellow SBIA members and take part in discussions with key transportation stakeholders in our neighbourhood including City of Vancouver, Vancouver Economic Commission, HUB Cycling, Modo, Translink, and Port of Vancouver among others.

THE SBIA WILL BE SWITCHING THE COMMUNITY SAFETY PROGRAM PROVIDER TO PALADIN SECURITY STARTING SEPTEMBER 1.

This is a result of a recently completed request for proposals for the program, which has been contracted out to the current provider since 2013.

The current provider will be on shift until 4pm on September 3. More information will be distributed to members leading up to the launch date.

MADE IN STRATHCONA MOST WALKABLE STREET 2021 – YEAR ONE RECAP!

We've launched an initiative to make East Hastings Vancouver's most walkable street by 2021. For this year we focused on building familiarity with the Strathcona neighbourhood among people in the Lower Mainland, attracting people and businesses to come to the neighbourhood to explore our community, and collecting benchmark data on how people feel about walking on East Hastings. To learn more about this year's initiatives, head to our blog at strathconabia.com/blog.

Great and walkable destinations:

-  Have diverse amenities for the community
-  Have a sense of comfort & safety
-  Are accessible
-  Provide a sense of social connectedness

We will be building on our existing community assets and targeting these four criteria to create a more walkable street. We are developing a metrics framework that will look at things like pedestrian activity, evening use, public amenities, local business ownership, environmental data, and more to measure our progress moving forward.

Sign up for the email newsletter by visiting the SBIA or Made In Strathcona website!
